* Note that there are special regulatory requirements for LBT, duty cycle and transmit times in this region		

## 5 HOW TO ADD A REGION OR COUNTRY TO THE LIST

Existing frequency plans must be used whenever possible, but any member of the Z-Wave Alliance may request support for a new country or region within the Z-Wave eco-system.

Member must provide references to the country/region's RF regulatory and email it to the Core Stack Working Group [CSWG-chair@sdmembers.z-wavealliance.org](mailto:CSWG-chair@sdmembers.z-wavealliance.org) for approval.

Once approved the CSWG will update and share this list with the Product Certification & Ecosystem Working Group for certification update.
